Our Strength

ศักยภาพของเรา

PRODUCTIVITY ผลิตภัณฑ์

Quality Management

การจัดการด้านคุณภาพ

Okamura wants to make products that can be used with confidence for many years. In addition to compliance with Japanese Industrial Standards (JIS) and overseas standards, we apply our own in-house standards, which are even more rigorous. We assess and confirm the quality and safety of all of our products by carrying out various analyses based on these standards, and by repeatedly subjecting samples to performance and durability tests.

Sustainability

ความยั่งยืน

We recognize that we have an important corporate responsibility to contribute to the creation of a sustainable society through the reduction of our environmental footprint. We have formulated energy conservation plans for each of our production sites, and we are working to reduce energy consumption in various ways, including the installation of energy-efficient equipment and the improvement of operating methods.

Development Technology

การพัฒนาเทคโนโลยี

We continually monitor the needs of society by tracking market trends and listening to our customers. We use the most advanced systems and tools to develop products that meet those needs.

Production Technology

เทคโนโลยีการผลิต

We have accumulated our own technology for the various steps involved in our manufacturing activities, allowing us to perform all necessary processes in-house. Our experience in the field of metal processing dates back our involvement in sheet metal processing for aircraft when the company was founded in 1945. We ensure that our metal-working legacy will continue to be handed down to future generations by providing employee education at our Technical Skill Training Center, and by helping specialist workers to achieve national qualifications.

PRODUCT DESIGN การออกแบบผลิตภัณฑ์

Design Philosophy

ปรัชญาการออกแบบ

Safety is our first consideration when developing new products. We are continually trying to meet the needs of our customers by improving comfort, including the use of designs based on ergonomic principles, and by helping to form environments that will enhance creativity. We want our designs not only to be beautiful, but also to provide enhanced functionality, safety, durability and reliability. This product development vision is reflected in the excellent reputation of our products in Japan and overseas, and in the numerous awards that we have won.

Eco-Design

การออกแบบที่เป็นมิตรกับสิ่งแวดล้อม

We are actively working to reduce environmental problems under our own environmental philosophy, which we call "Green Wave." "Green" symbolizes our care for the environment, while "Wave" represents our determination to generate and ride our own waves. Our products are designed to minimize environmental loads at all stages of the product lifecycle, from the selection of raw materials to disposal after use. By supplying these products to our customers, we are helping to create the sustainable society. We achieve this by carrying out assessments at the product planning and design stages and developing products with the smallest possible environmental footprints.

【GREENGUARD】 Certification

In 2003, our Contessa Series became the first products supplied by a Japanese office furniture manufacturer to be certified under the GREENGUARD standards in the United States for office furniture and interior building materials. Since then we have achieved certification for over 20 other product series.

New Office Trends / สำนักงานรูปแบบใหม่

Okamura has been thinking about office furniture and working environments more than half a century. Through the research of new trend in Japan, Thailand and other countries, we bring creativity and new value to office environments.

HAPPINESS

ความสุข

ABW

Activity-Based Working

ABW is business strategy that provides people with a choice of settings for a variety of workplace activities. It seeks to encourage people to physically locate themselves where it is most suitable for them to complete their work. Spaces are designed to create opportunities for a variety of workplace activities from intense, focused work to impromptu and informal meetings or more formal meetings.

WELLNESS

สบาย

HWP

Happy Workplace Program

HWP has been promoted by the Thai Health Promotion Foundation (Thai Health), an autonomous state agency in Thailand. A feeling of happiness derived from work becomes a very important factor of environment and Safety Management in a company. Happy at work is crucial both to the employee and the company. Happy people and happy company can create a lot of good things such as increasing productivity, quality, creativity and innovation.

USEFULNESS

สะดวก

One-Stop Solution / ทางออกที่ครบวงจร

We provide total solutions through ideal office spaces. In response to ever-changing personnel and working styles, we think of such diversity as inspiration to display our creativity and boost productivity. In order that individuals and organizations can perform at their best, we create environments that facilitate diverse working styles.

Office Furniture

เฟอร์นิเจอร์สำนักงาน

Outline of Business

With its top-line products and services, Okamura excels in Providing Solutions and ideas for a wide gamut of interior environments, such as workplaces that can accommodate diverse workstyles, educational facilities, libraries, healthcare facilities, and R&D facilities. In addition, Okamura has a wide range of products that are installed in theaters, museums and municipal facilities.

Office

Office Seating

Contessa Seconda

The Contessa series of ergonomic mesh chairs combines excellent conformity and smart operating functions for a variety of work scenarios and postures. Workers worldwide appreciate the distinctive designs and superb functionality of these chairs.

Conference Table

Traverse

In Traverse, every component of the Conference Table has been meticulously reengineered - from the unbelievably thin top to the graceful support structure, from the integration of technology to the 14 beautiful finishes.

Lounge Chair

Lives Chair

The Lounge Chair is not only for relaxing. It's designed to keep the lower body relaxed while maintaining the spine and neck upright for an ideal posture for work.

Collaborative Table

Cafe Table

Sit, Stand, Work alone, or collaborate. Approachable furniture enables connections, and connections bring new ideas.

Height Adjustable Desk

SW

No more adapting your workstyle to the desk, now the desk adapts to your workstyle. Move the surface of the desk up or down quickly and easily at the touch of a button. With full focus on free movement, comfort, and safety, SW is a fusion of beautiful design and flexible functionality.

Office Project Reference

CSR Activity

กิจกรรมเพื่อความรับผิดชอบต่อสังคม

Okamura CSR Policies

1. Promotion of Compliance

To ensure that our business activities are conducted in a fair, transparent, and sincere manner, we fully comply with all legal requirements, strive to prevent corrupt practices, and act according to the highest ethical standards.

2. Pursuit of Quality

We pursue high standards of quality and safety and provide society with creative technologies, products and services.

3. Environmental Friendliness

We are mindful of the environment in all aspects of our business so as to contribute to the creation of a more sustainable society.

4. Disclosure of Information

We always strive to maintain the trust of our stakeholders by disclosing information in a timely and appropriate fashion, while at the same time enhancing our communication with them.

5. Workplace Improvements

In addition to endeavoring to make our workplaces both healthier and safer, we respect diversity of employees and aim to provide the individual employees with working environments that will allow them to find fulfillment in their work and to achieve personal growth while cooperating with one another.

6. Respect for Human Rights

We shall promote respect for human rights and eliminate prejudice and discrimination while working to understand differences between individuals and cultures.

7. Harmony with Society

We promote respect for human rights and will not tolerate prejudice and discrimination while working to understand individual and cultural diversity.

CSR Activity in Thailand

Siam Okamura International as a member of corporate citizenship in Thailand will keep continue for CSR activity such as donation to appreciate for local community.
